

Help Spread the Sunshine from Fouse to Florida!

Please join us in helping to "Spread the Sunshine" to help Lee Elementary in Tampa, Florida. The school is a world studies and technology magnet school that was devastated by a fire after Hurricane Irma swept through Tampa leaving the staff and students in need of the very basics to teach and learn.

We will be collecting donations beginning the week of October 1st and ending our collection on October 13th. Students may drop off monetary donations in their classrooms. No amount is too small as long as it is given from the heart.

Thank you in advance for helping Lee Elementary feel the warmth of the sunshine spread from Fouse to Florida.

Sincerely,
The Hurricane Relief Committee
